

# Rising Star Project: Orchestra Track

## About

The Orchestra is part of the Performance Track, along with the Cast. The Orchestra will be mentored primarily by the professional Music Directing mentors working on the Rising Star Project Creative Team, and some musicians from the professional production as well. Students in the Orchestra will rehearse and perform the score for the Rising Star Project production.

## What To Expect

Those applying to the Orchestra will experience an audition process that mirrors the professional audition process. This process is intended to be an inviting and welcoming experience for anyone interested – no prior audition experience is required.

All members of the Orchestra are expected to attend all orchestra rehearsals. Orchestra rehearsals for Rising Star Project will take place in Downtown Seattle on Mondays from approximately 4-8PM, and are expected to start in April 2026.

The Orchestra must also be present for all technical rehearsals and performances.

## Consider Applying If...
